Secret Questions and Answers Setup

You have chosen to setup your secret questions and answers. You must supply your login password to authenticate your setup.

The secret question and answer pairs that you supply can be used to login if you forget your password. The questions and answers that you provide should be difficult for others to guess.

The following question and answer constraints are in place:

- The minimum number of valid question and answer question pairs that are required is: 6
- The minimum number of significant characters in a user-defined question is: 2
- The minimum number of significant characters in an answer is: 3
- Answers are not case sensitive (when answering the questions different upper and lower case characters may be supplied).
- Whitespace in answers is not significant (when answering the questions a different number of space characters may be supplied).
- Duplicate answers are not allowed.
