Accreditation of an educational program provides students and graduates assurance that the educational program will provide them with the requisite knowledge, skills, and values to competently perform the range of professional responsibilities expected by potential employers nationwide. It also assures they will be eligible for licensure in each of the 50 states. Programmatic accreditation requires programs to teach the entire curriculum developed by the professional society, the American Society of Radiologic Technologists (ASRT). Programmatic accreditation also assures students will have the foundation knowledge to continue to develop as professionals in the various fields of the radiation sciences.

Alabama Radiologic Science and Therapy Board State: <u>Alabama Department of Public Health, Office of Radiation Control</u> **Alabama does not require state licensure or certification to work as a radiologic technologist**.

Alaska Radiologic Science and Therapy Board State: <u>Alaska Department of Health & Social Services (Radiologic Sciences)</u> **Alaska does not require state licensure or certification to work as a radiologic technologist.** 

Arizona Radiologic Science and Therapy Board State: <u>Arizona Department of Health Services Bureau of Special Licensing</u> **Curriculum meets the state educational requirements for licensure** 

Arkansas Radiologic Science and Therapy Board State: <u>Arkansas Department of Health (Radiologic Technology)</u> **Curriculum meets the state educational requirements for licensure** 

California Radiologic Science and Therapy Board State: <u>California Department of Public Health (Radiological Health)</u> **Curriculum meets the state educational requirements for licensure** 

Colorado Radiologic Science and Therapy Board State: <u>Colorado Department of Public Health and Environment</u> **Curriculum meets the state educational requirements for licensure** 

Connecticut Radiologic Science and Therapy Board State: <u>Connecticut State Department of Public Health</u> **Curriculum meets the state educational requirements for licensure** 

Delaware Radiologic Science and Therapy Board State: <u>Delaware Office of Radiation Control</u> **Curriculum meets the state educational requirements for licensure** 

Florida Radiologic Science and Therapy Board State: <u>Florida Department of Health (Radiologic Technology)</u> **Curriculum meets the state educational requirements for licensure** 

Georgia Radiologic Science and Therapy Board State: <u>Georgia Environmental Protection Agency</u> Georgia does not require state licensure or certification to work as a radiologic technologist.

Hawaii Radiologic Science and Therapy Board State: <u>Hawaii Department of Health (Indoor and Radiological Health Branch)</u> **Curriculum meets the state educational requirements for licensure** 

Idaho Radiologic Science and Therapy Board Idaho does not require state licensure or certification to work as a radiologic technologist

Illinois Radiologic Science and Therapy Board State: <u>Illinois Emergency Management Agency (Medical Radiation Technology Services)</u> **Curriculum meets the state educational requirements for licensure** 

Indiana Radiologic Science and Therapy Board State: <u>Indiana State Department of Health (Medical Radiology Services)</u> **Curriculum meets the state educational requirements for licensure** 

Iowa Radiologic Science and Therapy Board State: <u>Iowa Department of Health</u> **Curriculum meets the state educational requirements for licensure** 

Kansas Radiologic Science and Therapy Board State: <u>Kansas Board of Healing Arts</u> **Curriculum meets the state educational requirements for licensure** 

Kentucky Radiologic Science and Therapy Board State: <u>Kentucky Board of Medical Imaging and Radiation Therapy</u> **Curriculum meets the state educational requirements for licensure** 

Louisiana Radiologic Science and Therapy Board State: <u>Louisiana State Radiologic Technology Board of Examiners</u> **Curriculum meets the state educational requirements for licensure** 

Maine Radiologic Science and Therapy Board State: <u>Maine Radiologic Technology Board of Examiners</u> **Curriculum meets the state educational requirements for licensure** 

Maryland Radiologic Science and Therapy Board State: <u>Maryland Board of Physicians (Radiographers)</u> Curriculum meets the state educational requirements for licensure

Massachusetts Radiologic Science and Therapy Board State: <u>Massachusetts Radiation Control Program</u> **Curriculum meets the state educational requirements for licensure** 

Michigan Radiologic Science and Therapy Board State: <u>Michigan Department of Licensing and Regulatory Affairs</u> **Curriculum meets the state educational requirements for licensure** 

Minnesota Radiologic Science and Therapy Board State: <u>Minnesota Department of Health</u> **Curriculum meets the state educational requirements for licensure** 

Mississippi Radiologic Science and Therapy Board State: <u>Mississippi State Department of Health</u> **Curriculum meets the state educational requirements for licensure** 

Missouri Radiologic Science and Therapy Board Missouri does not require state licensure or certification to work as a radiologic technologist.

Montana Radiologic Science and Therapy Board State: <u>Montana Board of Radiologic Technologists</u> **Curriculum meets the state educational requirements for licensure** 

Nebraska Radiologic Science and Therapy Board State: <u>Nebraska Department of Health and Human Services (Medical Radiography)</u> **Curriculum meets the state educational requirements for licensure** 

Nevada Radiologic Science and Therapy Board Nevada does not require state licensure or certification to work as a radiologic technologist

New Hampshire Radiologic Science and Therapy Board State: <u>New Hampshire Board of Medical Imaging and Radiation Therapy</u> **Curriculum meets the state educational requirements for licensure** 

New Jersey Radiologic Science and Therapy Board State: <u>New Jersey Department of Environmental Protection (Radiation Protection Element)</u> **Curriculum meets the state educational requirements for licensure** 

New Mexico Radiologic Science and Therapy Board State: <u>New Mexico Environment Department (Radiation Control Bureau)</u> **Curriculum meets the state educational requirements for licensure** 

New York Radiologic Science and Therapy Board State: <u>New York State Department of Health - Radiologic Technology</u> **Curriculum meets the state educational requirements for licensure** 

North Carolina Radiologic Science and Therapy Board North Carolina does not require state licensure or certification to work as a radiologic technologist.

North Dakota Radiologic Science and Therapy Board State: <u>North Dakota Board of Medical Imaging and Radiation Therapy</u> **Curriculum meets the state educational requirements for licensure** 

Ohio Radiologic Science and Therapy Board State: <u>Ohio Department of Health</u> **Curriculum meets the state educational requirements for licensure** 

Oklahoma Radiologic Science and Therapy Board State: <u>Oklahoma Medical Board</u> **Curriculum meets the state educational requirements for licensure** 

Oregon Radiologic Science and Therapy Board State: <u>Oregon Board of Medical Imaging</u> Curriculum meets the state educational requirements for licensure

Pennsylvania Radiologic Science and Therapy Board State: <u>Pennsylvania State Board of Medicine</u> **Curriculum meets the state educational requirements for licensure** 

Rhode Island Radiologic Science and Therapy Board State: <u>Rhode Island Department of Health (Radiologic Technology)</u> **Curriculum meets the state educational requirements for licensure** 

South Carolina Radiologic Science and Therapy Board State: <u>South Carolina Radiation Quality Standards Association</u> **Curriculum meets the state educational requirements for licensure** 

South Dakota Radiologic Science and Therapy Board South Dakota does not require state licensure or certification to work as a radiologic technologist.

Tennessee Radiologic Science and Therapy Board State: <u>Tennessee Department of Health (Health Professional Boards)</u> **Curriculum meets the state educational requirements for licensure** 

Texas Radiologic Science and Therapy Board State: <u>Texas Medical Board</u> **Curriculum meets the state educational requirements for licensure** 

Utah Radiologic Science and Therapy Board State: <u>Utah Department of Commerce - Radiologic Technology</u> **Curriculum meets the state educational requirements for licensure** 

Vermont Radiologic Science and Therapy Board State: <u>Vermont Board of Radiologic Technology</u> **Curriculum meets the state educational requirements for licensure** 

Virginia Radiologic Science and Therapy Board State: <u>Virginia Board of Medicine</u> **Curriculum meets the state educational requirements for licensure** 

Washington Radiologic Science and Therapy Board State: <u>Washington State Department of Health</u> **Curriculum meets the state educational requirements for licensure** 

West Virginia Radiologic Science and Therapy Board State: <u>West Virginia Medical Imaging and Radiation Therapy Technology Board of Examiners Radiology</u> **Curriculum meets the state educational requirements for licensure** 

Wisconsin Radiologic Science and Therapy Board State: <u>Wisconsin Department of Safety and Professional Services</u> **Curriculum meets the state educational requirements for licensure** 

Wyoming Radiologic Science and Therapy Board State: <u>Wyoming Board of Radiologic Technologists</u> **Curriculum meets the state educational requirements for licensure**
