

COVID-19 RETURN TO CAMPUS PLAN

Clovis Community College places the health and safety of our students, faculty, and staff first. This plan represents our efforts to ensure a safe learning environment for all of our constituents.

Versions and Distribution:

The initial response plan was distributed internally to the Campus Incident Management Team with summary emails provided to the campus.

- March 16, 2020
- May 15, 2020

The finalized CRCP distribution includes campus-wide distribution through our intranet Pathway Portal and local, regional, and state authorities. The CRCP is also available on CCC's Website at:

www.clovis.edu/coronavirus/

- July 6, 2020
- July 14, 2020
- July 17, 2020
- July 27, 2020
- August 3, 2020
- August 11, 2020
- September 3, 2020
- September 10, 2020
- September 18, 2020
- November 13, 2020
- December 18, 2020
- January 15, 2021
- February 1, 2021
- February 11, 2021
- February 26, 2021
- April 29, 2021
- July 1, 2021
- July 29, 2021
- August 26, 2021
- January 18, 2022

INTRODUCTION

Throughout the Coronavirus Pandemic, Clovis Community College leadership and employees continue to focus on “provid[ing] high quality education and training that improves the lives of all students and ignites economic vitality in the communities we serve” while ensuring the health and safety of our faculty, staff, and students. We continue to adjust to the uncertainties of the pandemic while balancing the educational and health needs of employees and students.

This COVID-19 Return to Campus Plan (CRCP) is a living document that outlines CCC’s efforts to bring employees, students, and the community back to campus. A complete on-campus presence depends on our community’s and state’s ability to reduce transmission rates, conduct widespread testing and contact tracing, attain high vaccination levels, and isolate / quarantine infected and exposed persons. It is essential to note that we must remain prepared for the possibility of a return of infections in the community that would necessitate the return to previous, more restrictive health and safety measures. CCC’s CRCP is aligned with the NM Governor’s “Phase” approach to return status, and we will continue our current Phase with that of the State, implementing or lifting restrictions as appropriate.

The CCC COVID-19 Return to Campus Plan adheres to the New Mexico Governor’s executive orders and guidance, the New Mexico Higher Education Department (NMHED) Reopening Campuses guide, the New Mexico Department of Health (NMDOH) public health orders, the Centers for Disease Control (CDC) recommendations, Occupational Safety and Health Administration (OSHA) guidelines, Equal Employment Opportunity Commission (EEOC) rules and regulations, and the New Mexico Reopening Plan COVID Safe Practices (CSPs) that was originally released May 28, 2020 with subsequent updates. CCC’s CRCP is also guided by the Clovis / Curry County Local Emergency Planning Committee guidance. CCC’s Director of Security will continue to serve on this committee.

Communication and transparency of CCC’s COVID-19 Return to Campus Plan are of utmost importance. It is noted that additions and revisions to the CRCP will be needed as the conditions of the Coronavirus pandemic continue to evolve. Amendments to the current CRCP shall be proposed through a process beginning with the department’s administrator who will present the changes to the Crisis Incident Management Team (CIMT). Once changes are finalized, the CRCP will be posted on CCC’s website and made available via our Pathway portal. All questions or concerns regarding the CRCP and contact tracing should be directed to Freddie Salazar, Crisis Incident Management Team Chair, at Freddie.salazar@clovis.edu, 575-769-4143.

Objectives

- To protect the health and safety of students and employees of CCC as we phase into an on-campus presence. This includes the elimination, to the greatest extent possible, of the transmission of the Coronavirus on campus. We are particularly aware of vulnerable individuals who have an increased risk of serious illness from the virus.
- To communicate the College’s intentions in order for students and employees to plan for reintegration of on-campus operations.
- To ensure we are adhering to the mission and values of the College as we return services, students, and employees to campus.
- To establish phases that provide a framework for when and how to carefully bring services and people back on campus.
- To follow actions that will allow the college to recover from the Coronavirus pandemic as quickly and efficiently as possible.

COVID-19 Personal Accountability – Everyone’s Responsibility

Because COVID-19 is a disease that spreads primarily from person to person, all employees, students, and visitors are expected to take personal responsibility for their own health, protect the health of others, and keep the campus community safe from the spread of COVID-19 and other infections. Faculty and staff are asked to lead by example, including the following:

- Promoting trustworthy information sources regarding the virus and vaccination options to promote vaccine trust and confidence;
- Reminding others of the recommendation to wear face coverings while on campus if not fully vaccinated against COVID-19;
- Reminding others of the need for social distancing while on campus;
- Promoting healthy habits and good hygiene;
- Following NM Governor’s Executive Orders and NM DOH guidelines regarding travel restrictions when in place, including notifying the HRS Office when returning from out-of-state travel;
- Following all self-isolation guidelines;
- Leveraging technology;
- Following all recommended social distancing, face covering, and hygiene protocols, both on and off campus;
- Immediately notifying Human Resources Office in the event of a positive COVID-19 test result.

In cases where reminding others to wear a face covering is not successful, the appropriate next step is to notify the Security Office. In cases where reminding others to observe social distancing protocols on campus is not successful, the appropriate next step is to notify the employees’ supervisor(s).

Any person who does not follow the CCC directives that protect public health and safety will be asked to leave campus, unless that person has received an approval for an exception.

Expectations

- Maintain appropriate social distance of at least 6 feet or that as recommended by NM Department of Health and the CDC.
- Avoid touching others – including shaking hands, hugging, and other forms of contact as recommended by NM DOH and the CDC;
- Wear a face covering in public if not fully vaccinated against COVID-19;
- Wash hands frequently following the WHO guidelines;
- Avoid face touching;
- Participate in health monitoring / screening with respect to testing, contact tracing, quarantine, and isolation;
- Protect the community by limiting potential exposure to COVID-19;
- Read and take responsibility for adherence to CCC’s COVID-19 directives and communications.

COVID-19 Employee Protocol Update-Effective January 18, 2022

With the continued spread of COVID-19, it is essential to remain diligent in keeping CCC employees and students safe. The Center for Disease Control (CDC) has updated COVID-19 guidelines regarding vaccinations, testing, and quarantines. In accordance with CDC guidelines and recommendations, the following CCC COVID-19 guidelines will take effect January 18, 2022.

- Employees who have been fully vaccinated or become fully vaccinated will need to show proof of vaccination to HRS as soon as possible (no later than January 19 or once fully vaccinated). CDC, OSHA, and NMHED recommend that all employees be fully vaccinated for the health and wellbeing of employees and students.
- New hires are recommended to be fully vaccinated and should show proof of vaccination to HRS within 2 weeks of hire date or when full vaccination is reached.
- Masks are required while on campus, except when enclosed in an office space and no other individuals are present. Masks should be worn at all times when more than one employee is occupying single air space. Employees are encouraged to wash their hands regularly and social distance when possible.
- Employees who must quarantine due to a positive test or a close contact with an individual who tests positive as identified below will be required to take sick/vacation leave or leave without pay if sick/vacation pay is not available.

1. Employee Tests Positive:

- 1.1 An employee who tests positive will be required to quarantine for 5 days beginning the day employee tested for COVID.
- 1.2 If employee has no symptoms (including no fever for at least 24 hours) after 5 days, employee can return to work and must wear a mask at all times for an additional 5 days.

2. Faculty members who are teaching face-to-face classes

- 2.1 If a student in the classroom tests positive and attended a class face to face within 3-5 days of the positive test, the student who tested positive must quarantine for a minimum of 5 days or until no longer symptomatic.
 - 2.1.a The entire class will revert to virtual format for 5 days beginning the day the individual tested for COVID.
 - 2.1.b All students in the class (other than the student who tested positive) who have been fully vaccinated, can continue to attend all other face-to-face classes. Students can contact the Admissions office to supply vaccination records.
 - 2.1.c All students in the class who are not fully vaccinated must quarantine for 5 days from all classes. After the 5-day quarantine, students may return to all classes.
- 2.2 If a student in the classroom tests positive in a class in which all students are required to be vaccinated (all Allied Health programs, except EMS), the student who tested positive must quarantine for a minimum of 5 days or until no longer symptomatic. The rest of the class will proceed as normal.
- 2.3 If instructor tests positive, the instructor must quarantine for a minimum of 5 days beginning the day the COVID test was taken or until no longer symptomatic. Any class session that is scheduled to meet during the instructor's quarantine period should be conducted virtually if possible. Instructor must wear a mask at all times when on campus for an additional 5 days upon returning from quarantine. Protocol for fully vaccinated and unvaccinated students should follow process in 2.1.b and 2.1.c.

3. Employee Comes in Close Contact with a Positive:

- 3.1 If an employee is fully vaccinated and comes in close contact with an individual who has tested positive, quarantine is not necessary. Employees are encouraged to get tested if they become symptomatic.
- 3.2 If an employee is NOT fully vaccinated and comes in close contact with an individual who has tested positive, the employee must quarantine for 5 days and should get tested 3-5 days after the close contact. If the test result is negative and the employee is not symptomatic, the employee can return to work upon

completion of the 5-day quarantine. If the employee is experiencing symptoms or tests positive, the employee must quarantine for an additional 5-days beginning the day employee tested and may return to work upon completion of the additional 5-day quarantine.

4. Limited Testing Available at CCC

- 4.1 The College has acquired a limited quantity of testing kits that will allow for COVID-19 testing on campus. Employees requesting on-campus COVID testing should contact Dannette Ewers in Educational Services at ewersd@clovis.edu or Ext. 4111. On-campus testing will be performed by Allied Health personnel. Individuals who test at another testing location must provide documentation of a positive test result to HRS in order to adhere to state notification requirements.

	<ul style="list-style-type: none"> ○ Vaccination criteria per NM authorities ● Governor opens businesses by executive orders. ● NMDOH further relaxes guidelines ● Return to Phase 2 if rise in new cases prompts increased restrictions by NM Gov. office 	<ul style="list-style-type: none"> ● Group number allowed by NMDOH guidelines ● Event protocols per Governor and NMDOH guidelines
<p>Phase 4 – Beyond Turquoise Lessened Safety Restrictions Significant Student Return</p>	<ul style="list-style-type: none"> ● Effective transmission rate at level determined by State ● 60% state-wide vaccination rate or other criteria per NM authorities ● Governor opens businesses by executive orders ● NMDOH relaxes guidelines ● Return to Phase 3 if new cases prompts increased restrictions by NM Gov. office 	<ul style="list-style-type: none"> ● Maintain safety measures per state guidelines ● Employees return to campus ● Return to full-on-campus scheduling for courses as needed ● Hands-on learning offered with authorized health and safety protocols ● Group numbers as allowed by NMDOH guidelines ● Event protocols per Governor and NMDOH guidelines

PHASE 0: RED

Status for Employees

During any return to Phase 0, only essential employees are allowed on campus with all health and safety precautions in place, including:

- social distancing of at least 6 feet or to align with NM DOH and CDC recommendations,
- personal hygiene including regular hand washing and avoiding touching face,
- utilization of cloth masks at all times when not alone in a closed office,
- temperature checks by security office personnel upon entry,
- COVID-19 screening questionnaire of building entrants, and
- daily entry logs of all personnel.

All full-time employees are expected to work remotely during normal business hours of 8am – 5pm, where possible. Any changes or alternations to these schedules are to be approved by the supervisor. Essential employees include those associated with the campus's infrastructure operations, security, financial services and financial aid, energy and water, communication and information technology, and essential administrative operations. These individuals are allowed on campus with supervisor approval to conduct essential business operations, only.

All official travel is cancelled.

Employees who display symptoms of COVID-19 or come into contact with those who have been diagnosed with COVID-19 are instructed to follow the NMDOH guidelines regarding testing and isolation.

Status for Operations

All on-site campus operations are closed to the public including the snack bar and bookstore. End-of-term book buy-back available by appointment only. All students must enter and exit through designated routes with mandatory face masks and temperature checks upon entry.

Human resources personnel will:

- Continue to ensure institutional policies align with public health recommendations / laws.
- Additional policies shall be established as needed for situations that arise due to the pandemic. HR will continue to review and update policy for individual employees to return to work following a COVID-19 related isolation as necessary. This policy includes parameters for those employees who are considered high risk for severe illness resulting from exposure to COVID-19, including who to notify about their concerns returning to campus.

The Physical plant will:

- Schedule additional cleaning per the CCC guidelines for cleaning and disinfecting (See Appendix).
- Prepare for phased campus opening including: setting up common areas inside buildings for social distancing and installing Plexiglass in identified service areas.
- Place markers for social distancing and traffic flow in high-traffic areas.
- Order additional face masks, hand sanitizer, and cleaning supplies as needed to prepare for re-opening.
- Maintain grounds and conduct necessary maintenance of building and grounds.

The Security Office will:

- Ensure campus security and limit access through the front entrance of the main building and single-point entries of other campus buildings.
- Monitor entrances, logging all entries into campus buildings, checking temperatures, and ensuring utilization of face masks.
- Identify entry areas and traffic flow through buildings for Phase 1-3. Identify potential "bottle neck" areas, and identify alternative routing opportunities. Develop visual ways to route students and employees that enforce 6

ft. distancing (or distancing recommended by NM DOH and CDC) on campus grounds, inside and outside of buildings. Collaborate with maintenance and institutional advancement as needed.

Information Technology will:

- Support all faculty moving courses to an online environment.
- Identify training needs and facilitate virtual training for faculty and staff to successfully work in a remote environment.
- Establish virtual conferencing capabilities.
- Establish virtual desktop and telephone capabilities for remote services access
- Identify plan for enhanced virtual classroom participation in Phase 3 for simultaneous on-site and virtual students.

Status for General Courses

All theory / lecture learning offered remotely.

Status for Specialty Courses

All hands-on credit laboratories are to receive incompletes for laboratory / simulation portions that are unable to be completed remotely until the status changes to Phase 1.

Following NMDOH and NMHED guidance, CCC will conduct high priority hands-on credit courses under the following conditions:

- Complete hands-on and laboratory coursework where “incomplete” grades were given;
- Complete hands-on and laboratory coursework for current term;
- Off campus learning (clinical, internships, practicums, etc.) can be conducted in collaboration with industry partners if the health and safety of students can be realized to the satisfaction of both CCC and the industry partner;
- Temperature checks by security office personnel upon entry;
- COVID-19 screening questionnaire of building entrants;
- Daily entry logs of all students, faculty, and staff;
- Utilize 6 ft. distancing measures and limited groupings in classrooms and laboratory / simulation spaces;
- Students and faculty wear face masks and practice other health and safety protocols consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided by CCC.
- Hand sanitizer in every laboratory and classroom where students and faculty will be present.

Status for Early College High School

All theory / lecture learning offered remotely. CCC will follow the guidance and approved Return-to-Campus plan established by Clovis Municipal Schools.

Status for Student Support Services

All student support personnel maintain virtual office hours through telephone, email and virtual meetings such as Zoom. Impacted services include:

- Admissions and registration – services offered remotely.
- Financial aid – services offered remotely.
- Cashiers – services are offered through TouchNet.
- Computer labs – remain closed. Laptops / Tablets available for check-out by students and staff.
- Tutoring Center – services offered remotely.
- Academic Coaching – services offered remotely.

- Veterans Services – services offered remotely.
- TRIO-SSS and Upward Bound- services continue remotely / virtual presentation of events.
- Library – services offered remotely.
- Testing Center – testing continues remotely through proctored services. No on-site testing available.

Starfish Retention platform utilized to identify students who may be adversely academically impacted by the COVID-19 pandemic through the utilization of a “COVID-19” flag. Follow-up outreach provided by student services personnel.

Status for Third Parties

- Guests are not allowed on campus.
- No events are held on campus; alternative virtual events created where feasible.

PHASE 1: YELLOW

Status for Employees

During Phase 1, essential employees and up to 25% staffing are allowed on campus with all health and safety precautions in place, including:

- social distancing of at least 6 feet or appropriate distance as recommended by NM DOH and CDC,
- personal hygiene including regular hand washing and avoiding touching face,
- utilization of cloth masks at all times when not alone in a closed office if not fully vaccinated against COVID-19,
- COVID-19 screening questionnaire of building entrants,
- temperature checks by security office personnel upon entry, and
- daily entry logs of all personnel.

All full-time remote employees are expected to work during normal business hours of 8am – 5pm, where possible. Any changes or alternations to these schedules are to be approved by the supervisor. Essential employees include those associated with the campus's infrastructure operations, security, financial services and financial aid, energy and water, communication and information technology, and essential administrative operations. These individuals are allowed on campus with supervisor approval at up to 50% staffing. All health and safety precautions must be followed.

All official out-of-state travel is cancelled.

Employees who display symptoms of COVID-19 or come into contact with those who have been diagnosed with COVID-19 are instructed to follow the NMDOH guidelines regarding testing and isolation. More information is provided in the "Protecting Your Health" section of this document.

Status for Operations

The campus is open from 8am-5pm, Monday-Thursday and 8am-4:30pm, Friday. The CCC snack bar remains closed. Re-opening is not currently scheduled. The bookstore is open from 9am-4pm, daily during the interim and 8am-5pm, Monday-Thursday and 8am-4pm, Fridays, beginning 0-week through the semester. All students must enter and exit through designated routes with mandatory face masks and temperature checks upon entry.

Human Resources personnel will:

- Continue to ensure institutional policies align with public health recommendations / laws.
- Develop protocols to ensure that employees who travel out-of-state follow all isolation / quarantine-related guidance as established by the NM Department of Health and the Governor's Executive Orders. These protocols will be revised to align with all current guidance.
- Additional policies shall be established as needed for situations that arise due to the pandemic. HR will continue to maintain a policy for individual employees to return to work following a COVID-19 related isolation. This policy includes parameters for those employees who are considered high risk for severe illness resulting from exposure to COVID-19, including who to notify about their concerns returning to campus.

The Physical Plant will:

- Schedule additional cleaning per the CCC guidelines for cleaning and disinfecting (See Appendix).
- Set up common areas inside buildings for social distancing.
- Place markers for social distancing and traffic flow in high-traffic areas. Complete installation of dividers in restrooms to ensure appropriate spacing.
- Complete enhanced COVID Safe facilities updates, including: installation of bottle-fill water fountains throughout the campus; complete installation of hand sanitizers, strategically located in all classrooms and throughout the campus; order additional face masks, hand sanitizer, and cleaning supplies as needed to prepare for continued re-opening.
- Maintain grounds and conduct necessary maintenance of building and grounds.

The Security Office will:

- Ensure campus security and limit access through the front entrance and HPE entrance of the main building and single-point entries of other campus buildings.
- Monitor entrances, logging all entries into campus buildings, checking temperatures, and ensuring utilization of face masks.
- Identify entry areas and traffic flow through buildings for Phase 1-3. Implement alternative routing opportunities to avoid “bottle neck” areas. Develop visual ways to route students and employees that enforce 6ft distancing on campus grounds (or appropriate distance as recommended by NM DOH and CDC), inside and outside of buildings. Collaborate with maintenance and institutional advancement as needed.

Information Technology will:

- Continue to support all faculty moving and conducting courses in an online environment.
- Identify training needs and facilitate virtual training for faculty and staff to successfully work in a remote environment.
- Support utilization of virtual conferencing capabilities.
- Support virtual desktop and telephone capabilities for remote services access
- Continue to develop plan for enhanced virtual classroom participation in Phase 3 for simultaneous on-site and virtual students.

Health and Fitness Center (effective June 8, 2020):

- Consistent with current Governor and NMDOH guidelines, the Health and Fitness Center will follow all operational occupancy limits (up to 50% capacity) and requirements for social distancing. Consistent with NM Public Health Guidance, masks shall be required while exercising (masks required, effective July 13, 2020).
- All equipment will be sanitized between users.
- Security will monitor the entrance, logging all entries into the facility, and conducting temperature checks.
- No high-contact (group) sports or swimming will be permitted in the facility.

Status for General Courses

All theory / lecture learning offered remotely.

Status for Specialty Courses

Conduct high priority hands-on credit laboratories under the following conditions:

- Complete hands-on and laboratory coursework where “incomplete” grades were given while in Phase 0.
- Complete hands-on and laboratory coursework for current term.
- Off campus learning (clinical, internships, practicums, etc.) can be conducted in collaboration with industry partners if the health and safety of students can be realized to the satisfaction of both CCC and the industry partner.
- Develop a plan for students who are at increased risk of serious illness after contracting the Coronavirus such as additional protective equipment or supervision.
- Utilize 6 ft. distancing measures and limited groupings in classrooms and laboratory / simulation spaces (or appropriate distance as recommended by NM DOH and CDC).
- Students and faculty wear face masks and practice other health and safety protocols appropriate to Phase I, consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided by CCC.
- Hand sanitizer in every laboratory and classroom where students and faculty will be present.

Status for Early College High School

The Early College High School may resume onsite operations at Clovis Community College on a modified basis. The plan will continue to be consistent with the Return-to-Campus plan as established and maintained by Clovis Municipal Schools. For classes with only ECHS students enrolled:

- The students will be divided into three instructional groups: Groups A and B on-site instruction, and Group C live-online instruction for those who are immune compromised or have mitigating circumstances;
- Temperature checks by security office personnel upon entry;
- COVID-19 screening questionnaire of building entrants;
- Daily entry logs of all students, faculty, and staff;
- Attendance taken each period;
- Utilize 6 ft. distancing measures and observation-only for laboratory exercises (or appropriate distance as recommended by NM DOH and CDC);
- All assignments and exams will be conducted via Chromebooks with no distribution of papers or other materials;
- No more than 10 students in each classroom, with all desks facing the same direction and plexiglass partitions at each instructor station;
- Students and faculty wear face masks and practice other health and safety protocols consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided by CCC;
- Hand sanitizer in every laboratory and classroom where students and faculty will be present;
- Classrooms will be cleaned after every class;
- Classes will be dismissed on a staggered basis to reduce hallway congestion;
- Students who elect to stay on campus during lunch must maintain social distancing of 6-feet while eating (or appropriate distance as recommended by NM DOH and CDC);
- Students will only utilize the restrooms in their classroom area; only one student allowed in the restroom at a time. Signs are posted on each restroom.

Status for Student Support Services

All student support personnel maintain virtual office hours through telephone, email and virtual meetings such as Zoom. By-appointment-only and occasional walk-in services may also be provided, at up to 25% staffing. Impacted services include:

- Admissions and registration – services offered remotely and on-site, by-appointment-only and occasional walk-in.
- Financial aid (up to 50%) – services offered remotely and on-site, by-appointment-only and occasional walk-in.
- Cashiers – services are offered through TouchNet and on-site, by-appointment-only.
- Computer labs – remain closed. Laptops / Tablets available for check-out by students and staff.
- Tutoring Center – services offered remotely and on-site, by-appointment-only.
- Academic Coaching – services offered remotely.
- Veterans Services – services offered remotely and on-site, by-appointment-only and occasional walk-in.
- TRIO-SSS and Upward Bound- services continue remotely / virtual presentation of events. SSS services offered on-site, by appointment only.
- Library – services offered remotely and on-site, by-appointment-only.
- Testing Center – testing continues remotely through third party proctoring services. On-site testing available at 25% capacity with 6 ft. distancing rules (or appropriate distance as recommended by NM DOH and CDC), by appointment only.

Status for Third Parties

- Guests are only allowed on campus by-appointment.
- Limited events are held on campus; alternative virtual events created where feasible.
 - Any event must have full administrative approval.
 - 6-ft social distancing and other CDC and NMDOH health and safety protocols must be followed.
 - Daily entry logs of all persons must be maintained.

PHASE 2: GREEN

Status for Employees

During Phase 2, essential employees and additional staffing are allowed on campus (not to exceed NM authority capacity guidance) with all health and safety precautions in place, including:

- social distancing of at least 6 feet (or appropriate distance as recommended by NM DOH and CDC),
- personal hygiene including regular hand washing and avoiding touching face,
- utilization of cloth masks at all times when not alone in a closed office if not fully vaccinated against COVID-19,
- COVID-19 screening questionnaire of building entrants,
- temperature checks by security office personnel upon entry, and
- daily entry logs of all personnel.

All full-time remote employees are expected to work during normal business hours of 8am – 5pm, where possible. Any changes or alternations to these schedules are to be approved by the supervisor.

Vulnerable employees and those with underlying health conditions that put them at an increased risk of serious illness after contracting COVID-19 will work closely with their supervisors and HR to determine when is the safest time for them to return to on-campus work. Employees who have other concerns about returning to on-campus work such as school and daycare closings can discuss these concerns with their supervisors and HR.

All out of state travel will follow current NM DOH and Governor’s guidance.

Employees who display symptoms of COVID-19 or come into contact with those who have been diagnosed with COVID-19 are instructed to follow the NMDOH guidelines regarding testing and isolation. More information is provided in the “Protecting Your Health” section of this document.

Status for Operations

The CCC snack bar may re-open to follow occupancy guidelines as established by the current Public Health Order. The campus bookstore is open from 8am – 5pm, daily. All students must enter and exit through designated routes with mandatory face masks and temperature checks upon entry.

Human Resources personnel will:

- Continue Phase 1 actions as needed.

The Physical Plant will:

- Continue Phase 1 actions as needed.
- Assist with classroom room arrangements to ensure 6 ft. spacing in all classrooms for Phase 3 preparation (or appropriate distance as recommended by NM DOH and CDC).
- Complete enhanced COVID Safe facilities updates, including: installation of bottle-fill water fountains throughout the campus; complete installation of hand sanitizers, strategically located in all classrooms and throughout the campus; order additional face masks, hand sanitizer, and cleaning supplies as needed to prepare for continued re-opening.

The Security Office will:

- Ensure campus security and limit access through the front entrance and HPE entrance of the main building and single-point entries of other campus buildings.
- Monitor entrances, logging all entries into campus buildings, checking temperatures, and ensuring utilization of face masks.
- Continue to monitor traffic flow through buildings. Implement alternative routing opportunities to avoid “bottle neck” areas. Develop visual ways to route students and employees that enforce 6 ft. distancing on campus

grounds (or appropriate distance as recommended by NM DOH and CDC), inside and outside of buildings. Work with maintenance and institutional advancement as needed.

Information Technology will:

- Continue to support all faculty moving and conducting courses in an online environment.
- Identify training needs and facilitate virtual training for faculty and staff to successfully work in a remote environment.
- Support utilization of virtual conferencing capabilities.
- Support virtual desktop and telephone capabilities for remote services access.
- Continue to develop plan for enhanced virtual classroom participation in Phase 3 for simultaneous on-site and virtual students.

Health and Fitness Center:

- Consistent with current Governor and NMDOH guidelines, the Health and Fitness Center will follow all operational occupancy limits (up to 50% capacity) and requirements for social distancing. Consistent with NM Public Health Guidance, masks shall not be required while exercising.
- All equipment will be sanitized between users.
- Security will monitor the entrance, logging all entries into the facility, and conducting temperature checks.
- No high-contact (group) sports will be permitted in the facility.

Status for General Courses

Theory / lecture learning continues to be offered in an online format where feasible. Classes resume in face-to-face, hybrid and mixed modality formats. Face-to-face formats will include reduced capacity in classrooms to ensure appropriate social distancing. *Hybrid* instruction refers to instruction including a predefined schedule of face-to-face and distance components. *Mixed modality* instruction refers to a flexible instructional style incorporating synchronous face-to-face and virtual attendance.

Students allowed on-campus with the following restrictions:

- Follow all social distancing and maximum group protocols as established by NM authorities.
- Hybrid and mixed modality students who are off-site will complete synchronous instruction in a virtual format.
- All testing will be proctored for off-site students.

Status for Specialty Courses

Conduct high priority hands-on credit laboratories under the following conditions:

- Complete hands-on and laboratory coursework.
- Off campus learning (clinical, internships, practicums, etc.) can be conducted in collaboration with industry partners if the health and safety of students can be realized to the satisfaction of both CCC and the industry partner.
- Develop and maintain a plan for students who are at increased risk of serious illness after contracting the Coronavirus such as additional protective equipment or supervision.
- Utilize 6 ft. distancing measures and limited groupings in classrooms and laboratory / simulation spaces (or appropriate distance as recommended by NM DOH and CDC).
- Students and faculty wear face masks and practice other health and safety protocols appropriate to Phase I, consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided.
- Hand sanitizer in every laboratory and classroom where students and faculty will be present.

Status for Early College High School

The Early College High School may resume onsite operations at Clovis Community College on a modified basis. The plan will continue to be consistent with the Return-to-Campus plan as established and maintained by Clovis Municipal Schools. For classes with only ECHS students enrolled:

- The students will be divided into three instructional groups: Groups A and B on-site instruction, and Group C live-online instruction for those who are immune compromised or have mitigating circumstances;
- Temperature checks by security office personnel upon entry;
- COVID-19 screening questionnaire of building entrants;
- Daily entry logs of all students, faculty, and staff;
- Attendance taken each period;
- Utilize 6 ft. distancing measures and observation-only for laboratory exercises (or appropriate distance as recommended by NM DOH and CDC);
- All assignments and exams will be conducted via Chromebooks with no distribution of papers or other materials;
- No more than 10 students in each classroom, with all desks facing the same direction and plexiglass partitions at each instructor station;
- Students and faculty wear face masks and practice other health and safety protocols consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided by CCC;
- Hand sanitizer in every laboratory and classroom where students and faculty will be present;
- Classrooms will be cleaned after every class;
- Classes will be dismissed on a staggered basis to reduce hallway congestion;
- Students who elect to stay on campus during lunch must maintain social distancing of 6-feet while eating (or appropriate distance as recommended by NM DOH and CDC);
- Students will only utilize the restrooms in their classroom area; only one student allowed in the restroom at a time. Signs are posted on each restroom.

Status for Student Support Services

All student support personnel maintain a rotating virtual and on-site presence. Meetings with students occur on a by-appointment-only basis with occasional walk-ins as availability allows. This includes: Admissions and Registration, Cashiers, Tutoring Center, Academic Coaching, Veterans Services, TRIO Student Support Services and Upward Bound, Library, and Testing Center.

The computer lab will continue to offer laptops and tablets for student and staff check-out on an as-needed basis.

Status for Third Parties

- Guests are only allowed on campus by-appointment.
- Limited events are held on campus; alternative virtual events created where feasible.
 - Any event must have full administrative approval.
 - 6-ft. social distancing (or appropriate distance as recommended by NM DOH and CDC), maximum group size, and other CDC and NMDOH health and safety protocols must be followed.
 - Daily entry logs of all persons must be maintained.

PHASE 3: TURQUOISE

Status for Employees

During Phase 3, essential employees and additional staffing are allowed on campus (not to exceed NM authority capacity guidance) with all health and safety precautions in place, including:

- social distancing of at least 6 feet (or appropriate distance as recommended by NM DOH and CDC),
- utilization of cloth masks at all times when not alone in a closed office if not fully vaccinated against COVID-19,
- temperature checks by security office personnel upon entry,
- COVID-19 screening questionnaire of building entrants, and
- daily entry logs of all personnel.

All full-time remote employees are expected to work during normal business hours of 8am – 5pm, where possible. Any changes or alternations to these schedules are to be approved by the supervisor.

Vulnerable employees and those with underlying health conditions that put them at an increased risk of serious illness after contracting COVID-19 will work closely with their supervisors and HR to determine when is the safest time for them to return to on-campus work. Employees who have other concerns about returning to on-campus work such as school and daycare closings can discuss these concerns with their supervisors and HR.

All out of state travel is cancelled; in-state travel is permitted as needed and must be approved by administrator.

Employees who display symptoms of COVID-19 or come into contact with those who have been diagnosed with COVID-19 are instructed to follow the NMDOH guidelines regarding testing and isolation. More information is provided in the “Protecting Your Health” section of this document.

Status for Operations

The CCC snack bar and campus bookstore may open for operation, daily. The Snack Bar will follow the current Public Health directives regarding occupancy. All students must enter and exit through designated routes with mandatory face masks and temperature checks upon entry.

The Health and Fitness Center is open on a limited basis with all security health and safety protocols in place including 6 ft. distancing and maximum group occupancies in place (or appropriate distance as recommended by NM DOH and CDC). Routine cleaning of all equipment occurs between users. High-risk recreation sports will follow NM Governor and NMDOH guidelines.

Human Resources personnel will:

- Continue Phase 2 actions as needed.

The Physical Plant will:

- Continue Phase 2 actions as needed.
- Assist with classroom room arrangements to align with student spacing restrictions as established by NM authorities.

The Security Office will:

- Expand monitored main-building campus entrances as staffing capacity permits. Log all entries into campus buildings, conduct temperature checks, and ensure utilization of face masks.
- Implement alternative routing opportunities to avoid “bottle neck” areas. Implement visual ways to route students and employees that enforce distancing on campus grounds as permitted by NM authorities, inside and outside of buildings. Collaborate with maintenance and institutional advancement as needed.

Information Technology will:

- Continue to support all faculty moving and conducting courses in an online / hybrid / mixed modality environment.
- Identify training needs and facilitate virtual training for faculty and staff to successfully work in a remote environment.
- Support utilization of virtual conferencing capabilities.
- Support virtual desktop and telephone capabilities for remote services access.
- Implement plan for enhanced virtual classroom participation for simultaneous on-site and virtual students.

Status for General Courses

Theory / lecture learning continues to be offered in an online format where feasible. Classes resume in face-to-face, hybrid and mixed modality formats. Face-to-face formats will include reduced capacity in classrooms to ensure appropriate social distancing. *Hybrid* instruction refers to instruction including a predefined schedule of face-to-face and distance components. *Mixed modality* instruction refers to a flexible instructional style incorporating synchronous face-to-face and virtual attendance.

Students allowed on-campus with the following restrictions:

- Follow all social distancing and maximum group protocols as established by NM authorities.
- Hybrid and mixed modality students who are off-site will complete synchronous instruction in a virtual format.
- All testing will be proctored for off-site students.

Status for Specialty Courses

Conduct high priority hands-on credit laboratories under the following conditions:

- Complete hands-on and laboratory coursework.
- Off campus learning (clinical, internships, practicums, etc.) can be conducted in collaboration with industry partners if the health and safety of students can be realized to the satisfaction of both CCC and the industry partner.
- Develop a plan for students who are at increased risk of serious illness after contracting the Coronavirus such as additional protective equipment or supervision.
- Utilize distancing measures to align with student spacing restrictions authorities in classrooms and laboratory / simulation spaces as established by NM.
- Students and faculty wear face masks and practice other health and safety protocols appropriate to Phase I, consistent with CDC guidelines. If a student does not have an appropriate face covering, one will be provided by CCC.
- Hand sanitizer in every laboratory and classroom where students and faculty will be present.

Status for Student Support Services

All student support personnel maintain normal office hours. This includes: Admissions and Registration, Cashiers, Tutoring Center, Academic Coaching, Veterans Services, TRIO SSS and Upward Bound, Library, and Testing Center.

Computer labs are available for student-use with distancing requirements and other health and safety protocols in place to align with student spacing restrictions as established by NM authorities. Routine cleaning of all computer equipment will take place between users.

Status for Third Parties

Limited events are held on campus; alternative virtual events created where feasible.

- Any event must have full administrative approval.
- 6-ft social distancing (or appropriate distance as recommended by NM DOH and CDC) and other CDC and NMDOH health and safety protocols must be followed.
- Daily entry logs of all persons must be maintained.

PHASE 4: BEYOND TURQUOISE

Status for Employees

During Phase 4, all employees and additional staffing are allowed on campus (not to exceed NM authority capacity guidance) with all health and safety precautions in place, including:

- social distancing as per NMDOH guidelines and the CDC guidelines for higher education institutions,
- utilization of cloth masks as per NMDOH guidelines and the CDC guidelines for higher education institutions,
- consideration will be given to the current COVID-19 variant transmission status in our local area in determining masking and distancing requirements.

Vulnerable employees and those with underlying health conditions that put them at an increased risk of serious illness after contracting COVID-19 will work closely with their supervisors and HR to determine when is the safest time for them to return to on-campus work. Employees who have other concerns about returning to on-campus can discuss these concerns with their supervisors and HR. All full-time remote employees are expected to work during normal business hours of 8am – 5pm, where possible. Any changes or alternations to these schedules are to be approved by the supervisor.

Employees who display symptoms of COVID-19 or come into contact with those who have been diagnosed with COVID-19 are instructed to follow the NMDOH guidelines regarding testing and isolation. More information is provided in the “Protecting Your Health” section of this document.

Status for Operations

The CCC snack bar and campus bookstore may open for operation, daily. The Snack Bar will follow the current Public Health directives regarding occupancy.

The Health and Fitness Center is open with all NM DOH occupancy directives in place. Routine cleaning of all equipment occurs between users. High-risk recreation sports will follow NM Governor and NMDOH guidelines.

Status for General Courses

Classes resume in face-to-face, hybrid and mixed modality formats.

Students allowed on-campus with the following restrictions:

- Follow all social distancing and maximum group protocols as established by NM authorities and the CDC.
- Hybrid and mixed modality students who are off-site will complete synchronous instruction in a virtual format.
- All testing will be proctored for off-site students.

Status for Specialty Courses

Conduct high priority hands-on credit laboratories under the following conditions:

- Complete hands-on and laboratory coursework.
- Off campus learning (clinical, internships, practicums, etc.) can be conducted in collaboration with industry partners.
- Develop a plan for students who are at increased risk of serious illness after contracting the Coronavirus such as additional protective equipment or supervision.
- Hand sanitizer in every laboratory and classroom where students and faculty will be present.

Status for Student Support Services

All student support personnel maintain regular schedules.

Computer labs are available for student-use with health and safety protocols in place. Routine cleaning of all computer equipment will take place between users.

Status for Third Parties

- Events are held on campus; alternative virtual events created where necessary.

Monitoring COVID-19 Re-opening Transitions on Faculty, Staff and Students

Clovis Community College is dedicated to ensuring our employees and students continue to find success in their work and educational endeavors; therefore, the following plan will be utilized to monitor the impact the previously outlined Phase transitions have on our employees and students. Particular attention will be given to ensuring equity and access for all instruction and services for all employees and students.

- All supervisors will conduct routine status-checks with their employees, inquiring as to success of current work status and any obstacles experienced due to current Phase. This status-check can be performed formally or informally. Any significant challenges should be addressed with the appropriate supervisory administrator to determine the best course of action toward resolution. Identified challenges will be documented and analyzed to identify potential trends and develop larger-scale mitigation measures.
- In anticipation of an impending Phase transition, supervisors will contact all direct reports to discuss the transition and its potential impact on each employee's responsibilities. Any significant challenges should be addressed with the appropriate supervisory administrator to determine the best course of action toward resolution. Identified challenges will be documented and analyzed to identify potential trends and develop larger-scale mitigation measures.
- Throughout Phases 1-3, CCC faculty will conduct regular status-checks with students, either formally or informally, documenting any noted challenges in the Starfish Early Alert system for follow-up by appropriate student support personnel.
- At least once each semester, CCC will conduct a survey of all students currently enrolled in face-to-face, mixed-modality, and/or hybrid courses to identify challenges students may be facing with the current Phase of re-entry. Steps will be taken to mitigate challenges where possible.
- CCC will work with the NM Department of Health to identify possibilities for hosting vaccination clinics and information sharing events, utilizing CDC and NM DOH guidance for planning vaccination clinics. Information regarding these events will be conducted via social media, email, and other campus messaging avenues. Campus administration will work with student groups to promote vaccination efforts.

COVID-19 Employee Positive Test Response

In the event that an employee reports symptoms of COVID-19, the supervisor and the Human Resources Office should be notified. The employee will be asked to immediately leave campus and encouraged to seek medical attention. It is the responsibility of the health care provider to determine when a viral test for COVID-19 is appropriate. Symptomatic individuals are encouraged to follow [CDC guidance for self-care](#) and to watch for [emergency symptoms](#). If these symptoms are observed, emergency medical care should be sought.

Clovis Community College will work with our PRMC, RGH, and NM Public Health partners to perform rapid response testing for employees and students in the event of a COVID-19 exposure on campus. Priority will be given for individuals currently experiencing symptoms of COVID-19. Results are expected to be returned within 72-hours when possible.

In the event that an employee tests positive for COVID-19, the HR Office should be immediately notified, and the employee will be asked to immediately begin self-isolation, consistent with current NM Department of Health (NM DOH) and Center for Disease Control (CDC) guidance. The employee's immediate work area will be thoroughly disinfected. The NM Department of Health will be contacted to begin contact tracing efforts. Contact tracing will be conducted and those with possible exposure will be informed of the possible exposure, but confidentiality will be maintained as required by the Americans with Disabilities Act (ADA). CCC's Security Office (freddie.salazar@clovis.edu, 575-769-4143) and Human Resources Office (hrs@clovis.edu, 575-769-4033) will work with the local Public Health department officials to determine which individuals may have had close contact with the employee with COVID-19 and who may need to take additional precautions, including exclusion from work and remaining at home. Those self-isolating should continue to monitor for symptoms.

In the event an employee has been in close contact to a positive COVID-19 case while on campus, that section of the class or immediate work area will immediately transition to a virtual environment for the duration of the self-isolation period. All impacted faculty, staff, and students will be expected to abide by the self-isolation protocols as established by the NM DOH, Public Health Department, and CDC guidance. Employees who have been fully vaccinated may voluntarily present their proof of vaccination to the Human Resources Office to receive an exemption from self-isolation. Following the CDC's latest guidance regarding the ability for COVID-19 transmission among even asymptomatic individuals, vaccinated individuals are strongly encouraged to complete a COVID-19 test 3-5 days after known exposure.

Following the requirements of the New Mexico Environment Department (NMED), higher education institutions, including Clovis Community College, will report positive employee cases as follows: Occupational Health and Safety Bureau, NM Environment Department (<https://nmgov.force.com/rapidresponse/s/>) and then forward the submission report to the Office of the Secretary, NM HED (NMHED.COVID@state.nm.us). The following information will be provided:

- Name and address of the higher education institution
- Employer representative contact, email, and phone number
- Number of people employed and number of students enrolled at the higher education institution
- Number of individuals who tested positive
- Date each positive employee was tested
- Date and time employer was notified of the positive test(s)
- Last date each positive employee was in the establishment
- Date each positive individual began to self-quarantine
- Identifier for the positive COVID-19 case(s) → ex. "student," "faculty," or "staff member," excluding any Personally identifying information

Those instructed to work from home will be required to remote work where feasible. When remote work is not feasible, employees may qualify for up to 80 hours of paid sick leave under the [Families First Coronavirus Response Act](#) (FFCRA). Contact HR for more information.

COVID-19 Student Positive Test Response

In the event that a student reports symptoms of COVID-19, the instructor should direct the student to immediately leave campus and encourage the student to seek medical attention. It is the responsibility of the health care provider to determine when a viral test for COVID-19 is appropriate. Symptomatic individuals are encouraged to follow [CDC guidance for self-care](#) and to watch for [emergency symptoms](#). If these symptoms are observed, emergency medical care should be sought.

Clovis Community College will work with our PRMC, RGH, and NM Public Health partners to perform rapid response testing for employees and students in the event of a COVID-19 exposure on campus. Priority will be given for individuals currently experiencing symptoms of COVID-19. Results are expected to be returned within 72-hours when possible.

In the event that a student tests positive for COVID-19, the students should notify the CCC Security Office and immediately begin self-isolation, consistent with current NM DOH and CDC guidance. Any classrooms or other spaces where the student is known to have been while symptomatic will be thoroughly disinfected. The NM Department of Health will be contacted to begin contact tracing efforts. Contact tracing will be conducted and those with possible exposure will be informed of the possible exposure, but confidentiality will be maintained as required by the ADA. CCC's Security Office (freddie.salazar@clovis.edu, 575-769-4143) and Human Resources Office (hrs@clovis.edu, 575-769-4033) will work with the local Public Health Department officials to determine which individuals may have had close contact with the student with COVID-19 and who may need to take additional precautions, including exclusion from on-campus classroom participation. Those self-isolating should continue to monitor for symptoms.

In the event a student has been in a class with close contact to a positive COVID-19 case while on campus, that section of the class will immediately transition to a virtual class for the duration of the self-isolation period. All participating faculty and students will be expected to abide by the self-isolation protocols as established by the NM DOH, Public Health Department, and CDC guidance. Dual Credit and ECHS Students who have been fully vaccinated may voluntarily present their proof of vaccination to the Dual Credit / ECHS Office to receive an exemption from self-isolation. All other fully vaccinated students may voluntarily present their proof of vaccination to the Admissions and Records Office to receive an exemption from self-isolation. Following the CDC's latest guidance regarding the ability for COVID-19 transmission among even asymptomatic individuals, vaccinated individuals are strongly encouraged to complete a COVID-19 test 3-5 days after known exposure.

Students required to self-isolate due to exposure must make arrangements with all instructors for continued class participation and assignment submission.

Following the requirements of the New Mexico Environment Department (NMED), higher education institutions, including Clovis Community College, will report positive student cases as follows: NM HED (NMHED.COVID@state.nm.us). The following information will be provided:

- Name and address of the higher education institution
- Employer representative contact, email, and phone number
- Number of people employed and number of students enrolled at the higher education institution
- Number of individuals who tested positive
- Identifier for the positive COVID-19 case(s) → ex. "student," "faculty," or "staff member," excluding any Personally identifying information
- Date each positive individual began to self-quarantine

Those instructed to attend classes from home will have the opportunity to attend (a)synchronous class sessions or provided other accommodations where necessary. When remote class attendance is not feasible, the student should contact the instructor and Educational Services department for other accommodations as necessary.

Clovis Community College Facilities Cleaning Schedule

Consistent with NM Department of Health and [CDC recommendations for colleges and universities](#), CCC is undertaking preventative cleaning measures to prevent the spread of COVID-19.

Key Definitions:

Facilities are buildings that are owned by CCC and are visited by the general public.

Cleaning refers to the removal of dirt and impurities, including germs, from surfaces to reduce the risk of spreading infection.

Disinfecting refers to using chemicals, for example EPA-registered disinfectants, to kill germs on surfaces to reduce the risk of spreading infection.

These enhanced cleaning and disinfection procedures include:

- Installation of hand sanitization stations throughout the campus to be regularly stocked.
- Increased frequency of cleaning and disinfecting of high touch surfaces such as door handles, public restrooms, handrails, and tables.
- Disinfecting plexiglass barrier shields once per shift.
- Use of skin protection and face mask during all sanitization procedures.
- Laundering of all cleaning cloths after each use.
- Practice good hand hygiene after cleaning including washing hands with soap and water for at least 20 seconds.
- Sanitizing all classroom desks, chairs, and other high touch surfaces after each use.

Facility Screening Questions for All Campus Visitors

Revised 11-12-2020

***Questionnaire will be suspended during Phase 4**

1. Within the past 14 days, have you been diagnosed with COVID-19 by a doctor or had a positive test result for COVID-19 from a testing center or by the Department of Health?
 - Yes – *You are not permitted to enter the building*
 - No
 - Yes, but I received a clearance letter from the Department of Health
2. Have you been asked to self-quarantine because of COVID-19, and are you still within the quarantine period?
 - Yes – *You are not permitted to enter the building*
 - No
3. In the past 14 days, have you been in contact with anyone who you know has COVID-19, or with someone who is required to self-quarantine?
 - Yes – *You are not permitted to enter the building*
 - No
4. Within the past 14 days, have you had a fever at or above 100.4 degrees, chills, sore throat, body aches, or headaches?
 - Yes – *You are not permitted to enter the building*
 - No
5. Within the past 14 days, have you developed new shortness of breath, difficulty breathing, or dry cough?
 - Yes – *You are not permitted to enter the building*
 - No
6. Have you recently developed a loss of taste or smell?
 - Yes – *You are not permitted to enter the building*
 - No

CCC COVID-19 Employee Travel Guidelines

No self quarantining or remote work following travel is necessary at this time unless the traveler comes into contact with someone confirmed to have COVID-19. Additionally, employees are not currently required to complete the post-travel paperwork for submission to HR. Should the campus return to a previous phase of re-opening, the following practices may be re-instituted.

The CCC Administration and Human Resource Services have developed guidelines for employees that are required to travel during the current operational Phase I of the CCC COVID-19 Return to Campus Plan.

We must all continue to protect one another by being diligent in our COVID-19 practices of screening, maintaining social distancing, regularly washing our hands, and wearing masks while on campus as outlined in the CRCP. Additionally, we must be aware of the potential impact on campus operations by traveling to areas where there is a greater risk of contracting the virus, whether it is outside our state or here in New Mexico.

The health and safety of all our employees is our primary concern when considering the best course of action for keeping our campus COVID-free. In trying to balance employee privacy and campus safety, CCC Administration and HRS have developed the following guidelines so staff will know what level of self-quarantining or remote work will be expected after travel. Please tell HRS or your supervisor your plans before you travel.

Employees will still be expected to send a completed post-travel questionnaire to Human Resource Services. It is now available on Pathway/HRS/Employee Forms/CRCP Post-Travel Questionnaire. COVID-19 test results for return to work should also be sent for record keeping purposes.

The Governor of New Mexico has specific circumstances that would require self-quarantining. If you have any questions regarding the latest State regulations please visit <https://cv.nmhealth.org/> for guidance. It is important to note the difference between self-quarantining as required by the latest State of New Mexico Public Health Order and working remotely (if pre-approved) as specified by CCC Administration, HRS, or your supervisor.

The following is intended as to serve as a guideline only. The best practice is to be cautious during any travel. As with all COVID-19 policies and practices, this is a living document that may change to reflect state and federal regulations. When in doubt, call HRS for further information.
