Exploring TRIO SSS and It's Opportunities:

TRIO SSS provides academic support, aid in postsecondary course selection, and informs students about the full range of financial aid programs, benefits and resources for locating both public and private scholarships. Educational and informational services are offered to improve the financial and economic literacy of students. Students

are also prepared to apply for admission to four-year and professional programs through informational workshops and transfer advising. Additionally, as it is the goal of TRIO SSS to retain each student until degree completion, TRIO SSS offers individualized peer mentoring for each active participant. TRIO SSS **may also** provide

individualized advising for personal, career, and instruction designed to acquaint students with career op-

Program Description:

Through a grant competition, funds are awarded to institutions of higher education to provide opportunities for academic development, assist students with basic college requirements, and to motivate students towards the successful comple-

tion of their postsecondary education. Student Support Services (SSS) projects also may provide grant aid to current SSS participants who are receiving Federal Pell Grants. The goal of TRIO SSS is to increase the college retention and graduation

rates of its participants.

Loans - Interest Rate and Calculation:

A rate which is charged or paid for the use of money. An interest rate is often expressed as an annual percentage of the principal. It is calculated by dividing the amount of interest by the amount of principal.

P = principle, R = rate, T = time (normally in years) and I = Interest.

$P \text{ (principal)} \times R \text{ (rate)} \times T \text{ (time)} = I \text{ (interest)}$

Principle + Interest = Total Amount to be Paid
